PINE BARK ORNAMENTAL

Premium grade British pine and spruce bark chippings, harvested and screened to remove all fines, producing a top quality and consistent product. Due to the large particle size, this product is very long lasting and gives an ornamental touch to any application.

For use in decorative and prestigious areas as a preferred alternative to mulches because of the minimal wood content and consistent particle size.
Applications include decorative borders, planters, show uses etc.

Main constitution: Pine and spruce bark	Minimum effective depth: 50mm
Origin: United Kingdom	Bulk density: 215g/m ³
Particle size distribution: 15 - 65mm	Purity: Pure
Wood content: <5%	PH value: 4.5 - 5.5
